Vitos kinder- und jugendpsychiatrische Ambulanz Kelkheim

You can return this questionnaire in a

Frankfurter Str. 63

window envelope.

65779 Kelkheim

Please ensure sufficient postage has been paid!

First name of the child:	Name:
Born on:	Post Code, place of residence:
Street:	Tel.:
Mobile:	Email:
Nationality:	Country of origin (if applicable):
Referring paediatrician or GP:	
GP Address:	
Health insurance provider: ☐ Statutory ☐ Private	Name of health insurance provider:
Insured by:	Born:
Has the child been to our child and adolescent psyc	hiatry unit before?
☐ No If yes → ☐ Outpatient ☐ Inpatient	
Who completed the questionnaire?	At At
Name and surname:	Completed on:
☐ Father ☐ Mother ☐ If other, who?	

It would be helpful to have the following information for a successful consultation. Rest assured that this information will be kept **strictly confidential**!

Please mark the box next to the most appropriate statement. For some questions, more than one answer may be applicable at the same time; other questions may not apply to the child at all. You can also leave questions unanswered. There may not always be an appropriate answer. In such cases, please write your answers in a few words in the appropriate blank lines.

Any further questions can be addressed on the date of the clinic appointment. **If possible, both parents should accompany the child for the initial examination.** This allows you, your child or adolescent to describe your concerns together and to find suitable developmental solutions together with the therapists.

Thank you for your cooperation!

First of all, we would like to get an overview of why you have come to us.

I. Reasons for the appointment

	What are your actual reasons for coming to our department? What behavioural or physical symptoms does the child display? (<i>Please describe in a few words</i>)		
	Do you remember when the behaviour / physical symptoms first started to occur?		
	☐ Very gradually, starting at the age of		
	☐ Very suddenly, starting at the age of		
	Did anything happen which you believe might be connected to this?		
	□ No □ Yes → What?		
	Is the behaviour more or less frequent when the child is in certain places, at certain times of the day, in certain situations and / or in the presence of certain persons?		
	□No		
	☐ More frequent or greater, when:		
	☐ Less frequent or weaker, when:		
	For whom is this behaviour of the child the biggest problem, who suffers most?		
•	So far, how have you reacted to the child's behaviour?		
	How did other people, who are important to the child (other parent, grandparents, nursery-school teachers, school teachers, etc.) react to this behaviour?		
	Who recommended our services? What are your expectations?
